

Quality Policy

The Drug Analysis Laboratory is committed to good professional practice and to providing a quality service.

The management of the HSE National Drug Treatment Centre is committed to supporting the laboratory in its goal to deliver the best possible standard of service, in compliance with regulations and with the requirements of ISO/IEC 17025:2017, while working with the customer in order to meet and anticipate customer needs.

The Laboratory is committed to complying with the requirements of ISO/IEC 17025:2017 and to continuously improving the effectiveness of the management system by on-going audits and training

The objective of the quality system is to have a fully documented and transparent system, which will enable the laboratory to meet the requirements of the ISO/IEC 17025:2017, as accredited by INAB (registration number 169T).

The quality system is comprehensively documented in the Quality Manual and associated documents and all laboratory staff are fully committed to carrying out their work in accordance with the quality system.

Ms. Siobhan Stokes, Principal Biochemist
(HSE National Drug Treatment Centre Laboratory)
